Camp Director

Ph. # (601) 403-1381

jhess@prcc.edu

- Camp will be held at PRCC Soccer Field located at the Pearl River Community College Athletic Complex in Poplarville, MS

Camp Philosophy

The building blocks of any sport are individual skills and the ability to perform those skills in any situation. We believe that these skills can be learned through repetition and consistent focus on the correct technique. We will be introducing and building on some of the most basic skills in the game of soccer like juggling, dribbling, receiving & shooting. We will teach new ways to juggle, new dribbling moves, different ways to receive the ball and turns to apply once the ball has been received and finally we will focus on the correct technique for shooting not only for power but more importantly accuracy. We will start in an environment where each participant can practice the techniques with no stress and then move through a series of exercises and games that will add pressure in order to help each player improve as quickly as possible. It is very likely that one day we will be recruiting some of the players who attend this camp so we strive to make use of every minute to help each player get the most out of their ability.

Who Can Attend

- Those students who are going to be High School Freshman thru Senior's.
- Those students who are going to be college freshman are also invited.
